Ed's Turn

No one submitted any articles this month. So, a product review and a ride picture will have to do. And now I am forced to write about my F350 pickem' up. I really wanted an OBS (old body style) with a manual but had to settle for an automatic. The manual models are really hard to find. I traveled to Vegas for this one. Overall, it's in good shape but needs some tlc. Funny how the term excellent condition has such a wide definition. What happened to the F150? I got tired of it. And what about the Ranger before that? It was gutless. Maybe someday I'll stick to one vehicle but where's the fun in that? Lift kit, cold air intake are on the way. Cat back and clear headlights installed. The stereo is next. The bikes? Yes, I still have them, no plans to sell those. Jim. If you don't want more of this type of material, send in some articles. I'm here for you.
