**Message from James Chen:**

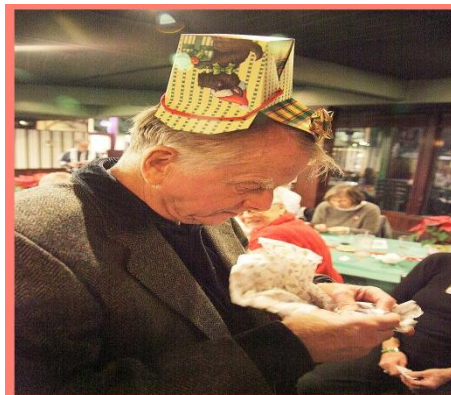

"Subject: July This year July has 5 fridays 5 saturdays and 5 Sundays. This apparently happens once every 823 years. In China, this is called money bags, and the common belief is that it is bad Fung Shui not to pass this along this message, or money troubles will haunt you for the rest of the year! So send this on and money should arrive in 5 days. Happy New Year !"

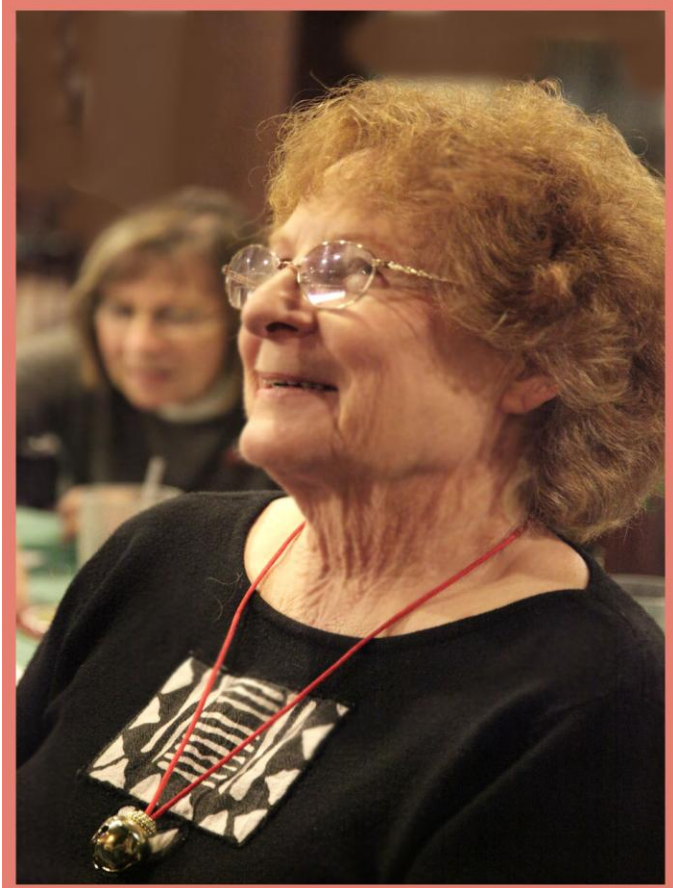

**Send-on with Observation and Question by Keir Nash:**

But 5 Fri, 5 Sat, 5 Sun in July will occur any year in which July 1 falls on Friday. The 5<sup>th</sup> Friday will be the 29<sup>th</sup>, the 5<sup>th</sup> Saturday the 30<sup>th</sup>, and the 5<sup>th</sup> Sunday the 31<sup>st</sup>. Shouldn't there be a 1 in 7 chance of this happening, not 1 in 823?? My guess is that what happens only every 823 years is that lions also come to your door on each of these fifth days -- which makes for living in interesting times..
